EDUCATION

VTU B.E(Computer Science) 2019

PROJECTS

mobile app development :

STORYTELLING APP

<https://snack.expo.dev/@fareesa/story-telling-app>

- The app was built with expo[react-native]
- Using Googles firebase Realtime database
- Added Sign-in with Google [Authentication]
- Login and logout functionality, night and day mode
- Users can create posts[stories], read others posts
- like and dislike posts

E-LIBRARY APP

<https://snack.expo.dev/@fareesa/e-library-app>

- Online library with the transaction and search functionality.
- Db using Cloud Firestore database, Queries to check Valid transactions added Firestore Authentication to sign-in with email and password. Material designs components for UI

Game Development - JS

FLAPPY BIRD CLONE

TREX RUNNER, MARIO, MINECRAFT CLONE 2d

MULTIPLE PHYSICS ENGINE GAMES.

single player, multiplayer, multiplayer online games with firestore db.

SKILLS

- **Web development Machine Learning - Python/ JavaScript**
- **Computer Vision - Python**
- **Game Development - Javascript**
- **VR/AR- Aframe, Three.js**

EMPLOYMENT HISTORY

INTERNATIONAL CODING INSTRUCTOR

Whitehat Jr (2020 - Present)

Students: 120, 3500+ live coding Sessions, UK,US,IN & CA

- I adapt teaching methods and instructional materials to meet students' varying needs and interests.
- I observe and evaluate students' performance
- Establish clear objectives for all lessons, units, and projects and communicate those objectives to students.

Innoovatum. (2019-2021)

Operational manager/ Machine Learning Instructor

- I worked here as an Operational Head and Machine learning Engineer - In the year 2019, I made multiple projects with Keras and Tensorflow for object detection, computer vision, and prediction systems. Also, have some familiarity with NLP for creating chatbots and appointment schedulers.
- As a Machine learning instructor, I have organized a few workshops across north Karnataka and Hyderabad region, India.
- I am also a Co-Author of the research paper 1D Convolutional Neural Network with ECG signals-**ICSET**. Scopus indexed
- With the vision of making Engineering education practical
- I have been mentoring engineering students to build machine-learning projects
- I am also delighted to have one of my students **bag 2nd prize** in the online national-level project exhibition 2020 organized by TCOE, Gadag, Karnataka.

UDEMY INSTRUCTOR

Innoovatum (2019 - Past)

-Course name: Machine Learning Fundamentals

-Link - <https://www.udemy.com/course/innoovatum-practical-machine-learning-fundamentals/>

Course includes-

2.5 hours of on-demand videos, articles, practice tests, and coding exercises

Full Stack software development Trainer

Edgetrek Academy India Pvt. Ltd (2021 - Present)

I am glad to work here as a trainer for THE MINORITY PROGRAM led by Govt. of India. for Ages(22-25).

CERTIFICATIONS

Bachelor of Engineering

@Visvesvaraya Technology University

Game Development fundamentals

@ByjusFutureSchool

App development Fundamentals

@WhiteHatjr

Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning
@deeplearning.ai

Fontend Web Developer

@Udemy

Kids Coding Championship

One of the juries judged kids' logic and coding proficiency.
